# Thames Gateway economy projected to contract

UK economy to contract by 3.25% in 2009 and 0.6% in 2010?

The Thames Gateway to shrink by 5% (2008-2010)?

A wide gap between target and trend employment relative to forecast employment is projected.

These are projections of what could happen

# Conclusion

- A synchronised contraction in the global and UK economies.
- Higher concentration of production and construction activities in Thames Gateway
- Unemployment has increased but less severely than elsewhere?
- Employment rate so far doing better than elsewhere.
- High degree of interdependencies within Thames Gateway and the Greater South East.
- Economy expected to shrink by up to 5% - Forecasters busier than ever!
