

## Freedom of Information Request - R277

### Annex 1 - Grants for Research & Development and SMART Awards 1/

Project Title	Project Type
Development of an innovative vehicle data logging	Development
An External Cavity Tunable Laser.	Development
Evaluation of technical feasibility of producing b	Feasibility
Plasti Piles Feasibility Study.	Feasibility
Advanced Acoustic Correlation system for Accurate,	Development
Optical Fibre Distributed Sensor	Feasibility
Sub 100 micron pitch solder ball array.	Feasibility
Development of a novel high efficiency micro gas t	Feasibility
Refinement of methodology for extraction of DNA and	Feasibility
Detection of T Cells	Feasibility
Real-Time Imaging Spectrometer	Feasibility
Sand-iron denitrification filter	Feasibility
Perceptual Learning Software	Feasibility
The Pegasus	Development
Cancer Diagnostic.	Feasibility
An Endoscopic Advancing Device	Feasibility
Sycamore Microwave Assisted Sludge Handling	Feasibility
Bolt Force Sensor	Development
Vibration Generators	Feasibility
Imprint Development Project	Development
Feasibility study for a Finger Jointing Factory Us	Feasibility
U.V. Disinfection of sewage sludge.	Feasibility
Unified Communications Server	Development
Titan	Development
Internet Based Sports & Training (FIST)	Feasibility
DIGePRINT Fibre Taper/LED Source.	Feasibility
Laser Railhead Cleaner.	Feasibility

Panelised floors for flats.	Feasibility
In Situ Nucleic Acid Amplification Assay	Development
A New Low Cost Breath Actuated Inhaler	Development
Laser Inspection of Printed Circuit Boards.	Development
Soil Biological Activity Meter	Feasibility
Growth of Small Grain Chromium	Development
The Magnum Project	Development
Wastewater Treatment Technology.	Feasibility
Sound Attenuating Air Brick	Feasibility
Vitasol	Development
Proposal for Adhesively Mounting Printing Blankets	Development
Novel Architectures for Motion Estimation	Feasibility
4Links Switch Project	Feasibility
Thermoplastic Composite Containers for Internation	Development
The Bruntel Engine for Sustainable Mobility	Feasibility
Configurable Reusable Modular Pallet Systems (CRUM	Feasibility
iOra Peach - A Mobile Intranet for Hand Held Devic	Development
e-MCE Feasibility	Feasibility
Intelligent Power Switch	Feasibility
Prototype Integrated Camera Unit	Feasibility
Terraseed On-Site Decontamination	Feasibility
Improving Breast Cancer Diagnosis	Feasibility
Power Transmission Pod for Satellite Communication	Development
To investigate methods suitable for large scale ca	Feasibility
Water Industry Satellite Terminal	Feasibility
Automatic Swimming Cover for Irregular shape Pools	Development
Vascular Implant Polymer	Feasibility
Conveyer Belt Cleaning System	Development
The RIB (Rim Integrated brakes) Study	Feasibility
Novel Mass Spectrometer	Feasibility

The Interferomet Metrology System	Development
ADL Print and Apply Labeller	Development
A continuous Cardiac Output Monitor for Neonates	Feasibility
A Marine Collision Avoidance Device	Feasibility
Development of a Boat Hatch Environmental Privacy	Development
Versatile Rehabilitatio Aid	Feasibility
Adjustable platform for application in the constru	Feasibility
Genetic Analysis Using Universal Probes	Feasibility
Better and Safer Operation of Process Plants	Feasibility
Development of the Monoblade antidive front suspe	Development
Solid State Plasma Antennas	Feasibility
Electronic Fieldbus Interface Tagging System	Development
MO2 Anaesthetic Ventilator and Resuscitator for Mi	Development
Easy Homestyles	Feasibility
Life Saver Pressure Capsule	Feasibility
SmartSensor Diagnostics System	Feasibility
Quasar Toric Development	Development
Intelligent Vacuum Gauge	Feasibility
Greenox	Feasibility
"Gene Processor" Prototype	Development
Development of a Novel Genetic Wellbeing	Development
Feasibility Study for the Production of the Aquari	Feasibility
Dotcom Therapy	Feasibility
The development of a daily disposable toric soft c	Development
Illuminated Flexible Membrane (I.F.M.)	Exceptional
High Precision, 3D measurement system	Feasibility
Exploiting Opportunities in Nano Powders and Novel	Exceptional
Road Vehicle Response to Crosswinds	Feasibility

Handheld Dispenser for Controlled Drinks	Development
Offshore Wave Energy Converter	Feasibility
The FLOXYADE Process	Feasibility
High Torque Pneumatic Motor	Feasibility
Plastic Recycling TrimMaster.	Development
Development of a genotyping system to identify rac	Feasibility
Intelligent fish bite detector	Feasibility
A kit for determining the functional activity of f	Feasibility
The Knowledge Tree	Feasibility
Through Zero Co-linear Loadcell	Feasibility
Kite Sail	Feasibility
An advanced biochemical process for treating VOC (	Feasibility
Project to ascertain the feasibility of developing	Feasibility
E-Commerce Toolset	Development
Project "Scratch"	Feasibility
Versatile Low Cost Hand Held Instrumentation	Feasibility
Recycling of polystyrene wafer shells.	Feasibility
Non Invasive Testing of Marine Hulls	Development
Adaptive Temperature Controlled Insulated Shipping	Feasibility
Sports and Fitness Diagnostics	Development
The MERLIN Gamma Ray Probe	Feasibility
Feasibility of Scintisphere	Feasibility
Resin Tooling.	Development
Endothermic application of Combined Heat Pump and	Feasibility
Knowledge Transaction Server.	Feasibility
Fetal Risk Assessment During Labour and Delivery	Feasibility
Weblog Analysis Software and Business Intelligence	Feasibility
Digifold	Development
Domestic Heating Controller.	Feasibility
Medical Fluid Barriers - Limbs	Feasibility

Tasty Tots.	Feasibility
Web based communications network to maximise the u	Feasibility
Variability Correlation.	Development
Interactive actuator sensor limb lengthening devic	Feasibility
TrackIt: web-enabled activity monitoring.	Feasibility
Satellite Propulsion Technology	Feasibility
Realli Ski.	Development
Flood Protection Systems	Feasibility
The Application of the ZVE Fluidic Vanes in variou	Feasibility
Position Determination Unit (PDU)	Feasibility
The Centaur Seaplane	Exceptional
Computer mouse replacement using low cost, acousti	Feasibility
Increasing the security, traceability and safety o	Feasibility
Motor-caravan Visor Cloaking Shield	Feasibility
200 Series Feasibility Study	Feasibility
Photon Activation Technology	Feasibility
Computer Network Monitoring and Alarm System	Development
Effective Solutions for the Control of Red Poultry	Feasibility
To provide an e-business document business rule se	Development
Commercial Delay Line High Energy Compensated Atom	Development
Environmentally positive, cost effective solutions	Development
Solution Dispense Systems	Development
i-ARQ	Feasibility
Toxicity Testing System	Feasibility
Dual Environmental Sensor Study	Feasibility
An epidemiological tool to prevent FMD	Feasibility
Twin Stack Fuel Cell Generator	Development
Mycorrhizal fungi for the essential oil market	Feasibility
Road Traffic Detection	Feasibility

Seasonal Weather Forecasts	Feasibility
SPDC - The SMART Patient Diary Card for Clinical R	Feasibility
E-Customer orientation and Measurement System (e-c	Feasibility
Rapid H.pylori Detection	Feasibility
The Power Climber	Feasibility
Laser Railhead Cleaner.	Exceptional
CHP Oxidiser 2	Feasibility
Low Cost Digital X-ray Imaging System	Feasibility
Advanced MHC Proteins	Development
Atlas System	Development
Oxygen Distribution Method	Feasibility
2nd Generation Intelligent Lon Radio Transceiver f	Feasibility
Novel plasma ion source design	Feasibility
In5d Collaborative Enterprise Modelling Software	Development
Formworks `F1` Building System	Feasibility
The Development of a micro wind power device to po	Micro
Rotor Cooling System for High Performance Electric	Feasibility
Broadcast Wireless Camera	Feasibility
VSD Pre-Production Prototype	Development
Phase Separation Milk Flowmeter	Feasibility
Feasibility of UK reproduction	Feasibility
Tuneable Pipelined Frequency Transform (TPFT)	Feasibility
Heat Exchanger Manufacture	Feasibility
Net Top Box	Feasibility
Internet Supported Learning	Feasibility
Low Cost Automatic Metering System	Development
HOV POD	Feasibility
Olaopa Process Demonstration	Development
outdoor-where	Feasibility

Return on Learning Investment	Development
Greener technological recycling	Feasibility
Improvements to cam-less valve trains.	Feasibility
CompoZ	Feasibility
GPS Tracking of Farm Animals	Feasibility
Video Signal Analyser (HDTV)	Feasibility
Re-Engineering Airport Terminal Passenger and Bagg	Feasibility
Framework Software Product	Development
Use of XPS for measurement of allicin and water po	Micro
System Management Module	Development
Time temperature indicators	Feasibility
An Advanced Video Server	Development
Development of a new type of profile sander.	Feasibility
Turbine Blade Repair System	Exceptional
1394 A/V Chipset	Exceptional
Control Canine Parvovirus (C.C.P.)	Feasibility
Novel Drug Delivery Technology	Feasibility
"Razor" Sportboard	Feasibility
PV Conservatory Product Design and Testing	Feasibility
AquaFuels: Can Water Clean Up.	Feasibility
Manufacutre and marketing of a unique patent pend.	Development
Light Aircraft Information Centre	Feasibility
Meier Pollard Business System	Feasibility
feasibility of VSI sealing methods	Feasibility
Autonomous Airship Autopilot	Feasibility
Intellectual Capital Exchange	Development
Delta Lancer Avalanche Control System.	Development
HiTUS Tiles with PlasmaChrom	Development
Remotely monitored wireless camera system	Feasibility
Fuel Cell Development	Feasibility

Fluid Flow Protection Device	Development
Trackalert.	Development
RisKey TM Feasibility Study	Feasibility
eTAS	Development
Cross Border Business Solutions Broker	Feasibility
Proof of concept for spa catalyst technology	Feasibility
ITS 1610 Powder Development	Development
Development of Composite Beach Groyne	Development
Electric tug "Battery Fuel Station"	Feasibility
Creation of reusable object classes of open source	Feasibility
Assessment and Validation of the Use of Loran-C in	Feasibility
The Livedrive Concurrency Engine	Development
Small Molecules Against Cancer	Feasibility
MWR ILMS Software	Feasibility
Versatile PC-Card Interface Chip	Feasibility
Modular Marine Fender	Feasibility
High precision 3-D surface measurement of high seg	Feasibility
Compact UV Copper Laser	Development
Development of High Precision Refractometers	Development
FanWing UAV: A development and feasibility study f	Feasibility
Design, manufacture and sales of radio controlled	Feasibility
Vertical Take Off and Landing Aircraft	Feasibility
New Organic Nitrogen Sources	Feasibility
Low cost EDG Machine	Feasibility
Virtualised Control Systems	Feasibility
Multi-Functional Flaw Detector	Development
Audio file delivery unit	Feasibility
AutoCone	Feasibility
Advanced 12' CNC Bar Feed	Development
Specialist Data Solutions Ltd	Development
Visitor Management System Trial	Micro

Multi-Processing Risk Management	Development
CafeBabe	Feasibility
To create a 3D application to provide added value	Feasibility
Interlink	Feasibility
Development of Bioreactors	Feasibility
CADsign	Development
Safe Heart	Feasibility
Waterborne Infrasound Treatment of Lung Diseases.	Feasibility
Wireless Authoring Tools	Feasibility
Pressflow	Feasibility
Wireless Internet Applications	Development
Netsertion Digital Asset Recognition Technology	Feasibility
TrackIt: activity monitoring TrackIt: activity mo	Development
Microwave Digestion of Coastal, Intertidal & Estuar	Feasibility
The Post Pump - Cyclist Bicycle Pump	Micro
New Charging System for Large NIMH Batteries	Feasibility
Third Dimension Wheelchair Project	Feasibility
SASS Autonomous Survey Vehicle	Feasibility
Group Open Speech over IP	Feasibility
High Performance Kit Aircraft	Feasibility
The Kosmed Treatment System	Development
Diagnostic Anti-Snoring Device	Micro
Height Adjustable Self Powered Folding Wheelchair	Micro
ISO 17799 Risk Assessment Tool	Feasibility
Novel techniques for putters	Feasibility
Solar Production of Hydrogen	Feasibility
Cyphavision digital video encryption and Cyphavisi	Feasibility
Wireless Information Distribution Enablement (WIDE	Feasibility
Telco Network Optimisation	Development
Magic Ball Finder	Feasibility

WOW Saddle Project	Feasibility
Micronet Development: wireless instrument technolo	Development
Characterisation of ICMOS Cameras	Feasibility
MetaView	Feasibility
Intelligent rubber components	Feasibility
Subsea Power Generation	Feasibility
Enhancing IP Valuation	Development
Development of LED billboard prototype and ancilla	Development
"Gene Processor" Prototype	Development
Storage of Silk Proteins	Feasibility
Anibod Development	Development
Domestec Overflow Valve	Feasibility
Satellite Electronic Media	Feasibility
Merlin Doc Management System	Feasibility
Advanced Neonatal Feeding Tube	Feasibility
Net-Top-Box	Development
Portable Digital Colorimeter	Feasibility
Floating Breakwaters	Feasibility
Fuel Synthesis Project	Development
Barzanji Edge Driven Pump	Feasibility
Uplifter	Feasibility
Rational Therapy Design System	Feasibility
System for Restoration of Film	Development
Variable Delivery Pump	Feasibility
ISCaDE	Micro
The Pucknall Energy Project	Feasibility
DC Ozone Generators	Feasibility
Assessing BioTag Sample Method	Feasibility
Milk Flowmeter	Development
K3 Project	Feasibility
Easy-Postcard	Feasibility

Software Licensing Rules Model	Feasibility
Dog 8 Work	Feasibility
Marine collision avoidance	Development
EigenFit	Feasibility
Combined Heat & Power System (CHP)	Exceptional
To investigate RF Null Points	Feasibility
Undersea Power Conversion	Feasibility
GeoMetis	Feasibility
Vails Level Sensor Development	Feasibility
DIGIPET Detector Study	Feasibility
Radio scene-set dimmers	Micro
Automated Promotion Creation	Feasibility
Copperbot - Antifouling	Feasibility
Tuneable PFT	Development
Fitness monitoring system	Feasibility
Japanese Stationery Online	Micro
Propellant-Free Aerosol	Feasibility
LCD Prototype	Feasibility
New Millennium Scoring Solution	Development
Intelligent Fishbite Indicator	Micro
Use of a metal sinter as a calibrated reference	Feasibility
Plasma Devices & Antennas	Development
Superior Assay - Food Intolerance	Development
Talking Tins	Feasibility
Building Manager	Feasibility
Anti-Microbial Surfaces	Feasibility
Butt Edge Fully Concealed Door Closer	Micro
Tesla Turbine	Feasibility
Adaptive Client and Server	Feasibility
nPlug	Development
DM Product Feasibility Study	Feasibility
Domestic Heating Controller	Micro

Mobile Intranet Development	Development
Urine Collection Device	Micro
Mechanical Security Dye System	Feasibility
Rational Air Asset Management System	Micro
OATOLA	Feasibility
PowrNow	Feasibility
Immersive simulation system	Feasibility
Automated Appl. Generation	Feasibility
Digital sheet handling/ collation	Development
Face Authentication	Feasibility
Photon Activation Therapy PP200PAT	Exceptional
R/C VTOL Harrier/UAV	Development
Checka-Kid Baby Growth Monitor	Feasibility
A.I. Software Study	Feasibility
Broadband Access Equipment	Development
Pie-Lok Diverless Structural Connections	Feasibility
Pocket Location Server	Feasibility
Feasibility of a Fluid Sensor	Feasibility
Electronic Concrete Strength Measurement	Development
Methods for Laser Structuring HDI (High Density In	Feasibility
Seabed Located Drilling Rig	Feasibility
Intelligent Vacuum Gauge	Development
CORVUS Information Appliance	Development
Low Running Cost Traffic Bollard	Feasibility
Clean Power Assist on Yachts	Feasibility
Automated Paper Imaging System - APIS	Micro
Intelligent Voice Solutions	Feasibility
Low Cost Simumation Devices	Feasibility
UV Security Tags	Micro
F T Monitor	Feasibility
Production of Carbon Nanotubes	Micro
Super Absorbant Powder	Feasibility

Intelligent Energy Management	Feasibility
Pre-fabricated panel system	Feasibility
Livingstone GSM Terminal	Micro
Open4:Bis	Development
Developing Novel Ornamentals	Feasibility
Mobile Skate Equipment	Development
Fuel Cell Development	Development
Transparent Microwave Oven	Feasibility
Improvements to Silipaktor	Micro
Homebeat	Micro
Smart Flood Protection	Feasibility
UK4m (U-Klick 4 Marketing)	Feasibility
Aseptic Stickpack Machines	Development
Data Vortex - DB Replication	Development
The Antares Isci Project	Development
"Signature" Sorter	Development
Development of seedmat technology	Development
Glistening	Feasibility
infoTerrier	Feasibility
Devlopment project, the creation of reuseable obj	Development
2020 Visibility	Feasibility
Power cable on-line leak location	Feasibility
Waste Safe Bottle Container	Micro
Collapsible Steps for use in the Marine/Leisure /D	Micro
It's Only Natural Development	Feasibility
FricTEC	Feasibility
Novel Concurrent Microcomputer	Feasibility
Low Cost Flash Thermography	Micro
`Adaptive Learning Engine` - a key module of the i	Development
Automated Favourability Measurement	Feasibility
Householders` Flood Defence	Feasibility

PULP Transceiver	Feasibility
Data Point Analysis	Feasibility
Mobility Solution for Vets	Feasibility
Windows/XP HIPS Technology	Development
VN-Property SX	Development
Big Bus E-mail	Micro
UV Air Disinfection System	Feasibility
Memorypack generic telemetric system	Micro
Fusion Digital Photofinishing	Development
Modular Intelligent Cabinet	Development
NMR Gradient and shim software	Feasibility
Hierarchical Mod for Digital Sat TV Broadcasting	Feasibility
Wood Combustion Emissions	Feasibility
Biodegradable waste container	Feasibility
The Expertise, Knowledge and Community Process	Micro
Document Management Software	Micro
Acoustic Subsea Leak Detection	Feasibility
Board Manufacture for recycling	Feasibility
Automatic Evaluation of Scanned Laser Emmissions	Feasibility
Northwest Lifeboat Tender	Feasibility
The use of Mobile Manufacturing Units for Affordab	Feasibility
Epimer Engineering	Feasibility
Remote Video Gaming	Feasibility
Developing a Range of Digital Receivers	Development
A Controllable Petrol Can	Feasibility
BEST	Feasibility
Software applications for PC and Mac	Micro
ServiceNet	Development
AEGIS	Feasibility
Event Engine	Feasibility

Biomax Domestic Food Waste Solution	Feasibility
Firearm Dataloggers	Feasibility
Urine Incontinence Device	Feasibility
Tag Cam	Development
Rowing Boat Shape Improvement	Feasibility
Download Own Image	Feasibility
Sound Absorbing Tile	Micro
Moulded Reusable Gully Brush	Micro
Active Video Node	Feasibility
Purification of Methane Gas	Feasibility
AMDR Receiver	Feasibility
Drowning Protection System	Feasibility
Combined Rotary Rake and Vacuum Collector	Micro
Addressing DVT and Passenger Comfort	Feasibility
Pest Insect Control	Exceptional
Biodesulphurisation of Fuel Oil	Feasibility
Fibreoptics Connector for Underwater Applications	Feasibility
KilSim	Feasibility
Novel Product Coating System	Feasibility
A Novel Measuring Device	Feasibility
Boom for Oilspill Pollution	Feasibility
Web Based Legionella Training System	Micro
CellSector - Child Location	Feasibility
New Generation Cancer Tests	Feasibility
Isolated Batch Freezer	Development
Retractable Composite Rudder System (RCRS)	Feasibility
Phoneanything	Feasibility
Development of medical respiratory sensor using QT	Feasibility
Mediascope	Feasibility
Scambuster	Micro

FrogBox 2	Feasibility
To prove the concept of the Jen Turbo board	Feasibility
Making it Easy to Understand Business Data	Feasibility
Handwriting Recognition Technology	Feasibility
Traceability Systems for meat derived foods	Feasibility
Speech Generated Application	Feasibility
OneLook non-invasive diabetic glucose sensor	Feasibility
Multi incoding Support	Feasibility
SME On-Line Enabling Tool Kit	Development
Homogeneous Rapid Gene Sequencing Platform	Feasibility
IM ASIC Prototype	Feasibility
The Determination of Food Toxins	Feasibility
PCB Chip Antenna with Metal Clips	Micro
Predictive Gait Modelling Tool	Feasibility
Virtual Showhouse	Development
Folding Beach Catamaran	Micro
Distributed Fraud Prevention	Feasibility
Mechanical Automatic Coupler for Lifting Purposes	Feasibility
Visuallnsight	Feasibility
Target and Lead Validation Services Enabled by Eff	Feasibility
Self Care Motivation	Feasibility
Vacuum wallpaper stripper	Feasibility
Flexible waterproof storage containers	Feasibility
Grass Snake cable grip for outdoor use	Micro
Wireless sensors using photovoltaic devices	Feasibility
Photoluminescent Emergency Lighting	Feasibility
3D VSP Project	Feasibility
Cat retaining Fence Attachment	Micro
Cyphaware Product Developments	Development
Skyminder	Development

Hand held spectrometer reader.	Feasibility
Technologies enabling light in silicon	Feasibility
Rebreather HUD	Micro
Laser Cold Cutting & Drilling	Exceptional
Portable passive remote gas detection system	Feasibility
Exploitation of Milling Technology	Feasibility
Lighting system attached to cycle helmets	Micro
Flood Defence Systems	Micro - R & D Grant
Digital Ambient Noise Cancellation	Feasibility
ID Card Alarm	Development
Video Processing Device	Micro
Side-seat	Feasibility
Cytokinesis Inhibitor	Micro
Design and Build digital controller	Development
Childminder Location service	Feasibility
Synapse Global Optimal Voice Trading System	Feasibility
SIP Performance Management	Research - R & D Grant
MOCAM - Multi-sensor Camera	Feasibility
Stealth Viruses for Therapy	Development
Materials Characterisation	Feasibility
Distributed Fibre Optic Sensing	Research - R & D Grant
3D Motion Engine	Development - R & D Grant
Stable Bank Systems	Feasibility
Quest - Flight Information System	Micro - R & D Grant
Wind Turbine Condition Monitoring System	Development
Integrated Field Test Instrument	Development - R & D Grant
The MobileLink	Development
Development of a Microwave eng for Sat Propulsion	Development - R & D Grant
Predicting the durability of exterior wood coating	Research - R & D Grant
High Performance scalable analytical database	Development - R & D Grant
Galapagos Product	Micro - R & D Grant

Trim Tabs	Feasibility
Barton Digital Wallet	Feasibility
Induction Heating System for Conform	Development - R & D Grant
Next Generation Telecom Security Solution	Development
Waste Transfer Station Development	Feasibility
Secure Electronic Witnessing	Feasibility
TripSafe	Development - R & D Grant
Carbon Doped Ester Cured Phenolic Resins	Feasibility
Anti-Inflammatory and Immuno-Enhancing....	Feasibility
Pharmaceutically Active Recombinant Proteins	Feasibility
Dermal Drug Delivery Device (Offer declined)	Feasibility
Design to de-hydrate Compressed Natural Gas	Development - R & D Grant
Real Time 3D Entertainment for Mobile Devices	Feasibility
Feasibility of Clinical Innovations from the NHS	Feasibility
New Electroplating Technology	Research - R & D Grant
Generic System of "business alerts"	Feasibility
New method of Contact Lens production	Feasibility
VFD Compressor	Feasibility
New paint colour mixing system	Feasibility
Large Scale 2D Position Management System	Development - R & D Grant
Biliquid Foam Sunscreen Products	Feasibility
Mullti-Lingual Online Print System	Micro - R & D Grant
Auto ID Sensor	Feasibility
Sandwich Project	Feasibility
Fluorescent quenching to measure glycated haemaglo	Feasibility
Inspection of Microvias	Development - R & D Grant
Hyperhex Project	Development
Micro Model Fan Wing	Micro - R & D Grant
Boat Fender System	Feasibility
Study of a novel system for high throughput electro	Feasibility

Fast Charging of Nickel Metal Hydride Battery Pack	Development - R & D Grant
Right Mouse Button Project	Micro - R & D Grant
New Language for Defining & Supporting Agreements	Research - R & D Grant
Novel Purge Heater System	Feasibility
Dermal Drug Delivery Device	Research - R & D Grant
Open4 3G Firewall	Development - R & D Grant
Parameters of 3D Optical Capture & Display	Research - R & D Grant
Reprogrammable Electronic Experiment Board	Feasibility
Hybrid Electric Control System-Marine Applications	Feasibility
Thin Film Measurement & Control	Development - R & D Grant
Disposable, Biodegradable Packaging Products	Research - R & D Grant
A Lubrication device to aid sexual dysfunction	Research - R & D Grant
JEWEL-Electronic Ticketing	Development - R & D Grant
Curved Sausage Link Cutting Machine	Development - R & D Grant
Subscription Based e-Commerce Package	Development - R & D Grant
Go-Pen	Development - R & D Grant
Surf Spyder	Micro - R & D Grant
Wide Eye Base	Development
Box Jack/ Box Rack Project	Micro - R & D Grant
XML Life Cycle Development Environment	Development - R & D Grant
Isotope	Development - R & D Grant
Luminescent Nanocrystals Biolabeling Project	Exceptional
Electrically Regenerable Solvent Recovery	Development - R & D Grant
CZone Project	Research - R & D Grant
Track Tell-Tale Device	Development - R & D Grant
Chemical Free Swimming Pool Treatment	Research - R & D Grant
Analysis of pesticides in food	Research - R & D Grant
SafetyNet	Research - R & D Grant
Cot and Mattresses for Risk Reduction in SIDS	Development
Portable Digital Colorimeter - development	Development - R & D Grant

Tool for Querying/Exploring Scientific Data	Development
Sail Coaching System	Research - R & D Grant
A Miniaturised Reaction Vessel - Reactsac	Research - R & D Grant
Neurological Array RF Coil	Micro - R & D Grant
Interactive Board Game	Research - R & D Grant
Making It Easy to Understand Bus Data - Dev Stage	Development - R & D Grant
RGB Laser Development	Research - R & D Grant
Accel Healing & Pain Relief Through Adv Cyrotherapy	Research - R & D Grant
Generic Avionics Design System	Exceptional - R & D Grant (Dev 04/09)
The Maxsym MC4 Engine	Development - R & D Grant
Med Appliance to control colostomy side effects	Feasibility
FLEXWALL	Research - R & D Grant
Monthly Weather Forecasts & Auto Delivery System	Micro - R & D Grant
New Ornamental Eucalyptus	Research - R & D Grant
Automated Hacker detection for e-commerce	Research - R & D Grant
Multi RF Switch	Research - R & D Grant
DVD On Demand Automated Production Solution	Micro - R & D Grant
VPI Development Project	Development - R & D Grant
Automation of Large Municipal Brush Manufacture	Micro - R & D Grant
Cardfold	Development - R & D Grant
Advanced Transmission	Development - R & D Grant
Shower Tower	Micro - R & D Grant
Hard-Coated Aluminium Matrix Composite Tubular Pins for Lightweight, High-Efficiency Engineering Components	Research - R & D Grant
Research into Non-toxic Effluent Treatment Products	Research - R & D Grant
Ultra High Temperature Pressure Sensor Probe	Research - R & D Grant
Advanced software-controlled phase converter	Research - R & D Grant
Intelligent Solar Power LED Lighting Control Systems	Exceptional - R & D Grant (Dev 04/09)

Cableseal	Micro - R & D Grant
Wireless Diabetes Self-Management System	Development - R & D Grant
Ultra-fast Fibre Lasers for Industrial Applications	Development - R & D Grant
Tactile Aircraft Height Display	Research - R & D Grant
Cross Border Business Broker	Development - R & D Grant
Monetisation and Security for Online Distribution for Digital Content	Development - R & D Grant
Range of Contact-free controls	Development - R & D Grant
Identification Image System	Feasibility
The New ICF System	Development - R & D Grant
Hardide Coatings Using Chemical Vapour Deposition	Research - R & D Grant
Module for Advanced in-line sputtering from remote high density plasma	Research - R & D Grant
Heart Attack Early Warning Device	Research - R & D Grant
New Cutting Technology for Tree Stump Grinders	Micro - R & D Grant
Biodegradable, small environmental footprint nappies	Micro - R & D Grant
Enhancing Performance	Exceptional - R & D Grant (Dev 04/09)
Collapsible Music Stand	Micro - R & D Grant
Detector For Explosive Materials	Research - R & D Grant
novel anti viral project	Research - R & D Grant
AutoCone - Development	Development - R & D Grant
Oxford Genome Anatomy Project (OGAP)	Development - R & D Grant
New Types of Illuminated Road Signs	Development - R & D Grant
Pill protect	Micro - R & D Grant
Wheelchair Magic	Research - R & D Grant
Adaptive Web-based HR Software Development Kit (eHR-SDK) prototype	Development - R & D Grant
Advanced Nanocluster Tool	Research - R & D Grant
Anti-Terrorist Infrastructure Alarm System	Development - R & D Grant
PET Bottle injection Compression Moulding	Development - R & D Grant
MRI Magnet system for use with Gamma Camera Scanner	Development - R & D Grant
New Technical Paradigm for Motion Capture Technology v2	Micro - R & D Grant

Pre-Production development of an Improved Golf Putter	Development - R & D Grant
Patented Fluorescence Quencing technique for the Measurement of Glycated Haemoglobin in Diabetes	Development - R & D Grant
Domestic Product to aid the Preparation of Formula Milk for Infants	Micro - R & D Grant
The Reactive-Blade	Micro - R & D Grant
Mini Photovoltaic Wireless Sensors with Network Connection	Development - R & D Grant
Permeation Measurement	Micro - R & D Grant
Novel Chalcogenide Glass Fibre for Medical Applications	Micro - R & D Grant
A low cost, high precision current sensor for battery condition monitoring	Research - R & D Grant
Generic Form/ Questionnaire Design Software Package	Research - R & D Grant
Cutting Edge Machinery	Micro - R & D Grant

4/2000 - 31/3/2005
